

## Neonatal Nurse

### CLOUDPHYSICIAN

[Cloudphysician](#) aspires to be the global virtual hospital. We are reimagining the delivery of critical care through patient-centric solutions. We use our advanced technology, designed and developed in-house, to increase access to care globally. Cloudphysician has been radically transforming the delivery of critical care by impacting thousands of patients across India and enabling them to receive high-quality care irrespective of their location and is moving towards mainstreaming this model globally.

Our Care Center, based in Bangalore, is staffed 24/7 by a highly qualified and trained critical care team that includes super-specialist doctors, nurses, dieticians, and pharmacologists. The clinical team uses our proprietary platform, RADAR, to connect to hospital ICUs to oversee and manage the care of critically ill patients across multiple regions. RADAR, built by our team of technology experts, incorporates automation, computer vision, real-time video, and data analytics to help expert care providers connect to and provide care to patients.

We have cared for nearly 60,000 intensive care patients across 16 states in India and saved numerous lives.

### JOB DESCRIPTION

As a Neonatal nurse at Cloudphysician, you will be responsible for patient care delivered remotely at our partner NICUs. This is a unique opportunity to be a part of democratizing critical care in our country. You will actively deliver quality critical care remotely to NICUs across India, where access to quality neonatal care is limited.

### KEY RESPONSIBILITIES

- Caring for neonates at the remote NICUs from a centralized care center
- Manage these patients and document their progress, troubleshoot ICU issues, coordinate bedside nursing care in accordance with global standards, and escalate issues to the neonatal intensivist, who also will be at the command center 24/7
- Should be aware of ICU patients monitoring parameters like SpO2, cardiorespiratory, NIBP, Invasive BP, CVP, ventilation parameters, non-invasive ventilation parameters, CPAP/HFNC settings and others
- Assisting or hands-on experience in procedures like CPAP/HFNC, intubation, initiating ventilation, securing central lines, and ABG sampling.
- Conducting tele rounds involving patient review, daily rounds, review of labs and radiology, drug charts, and protocol compliance.

**Cloudphysician Healthcare Private Limited**, 7 Bellary Road, Ganganagar, Bengaluru 560032, KA, India.

- Liaising with the bedside team actively and providing critical care expertise in real time to augment the delivery of critical care to the NICUs
- Check-ins with regular intermittent tele rounds on sick patients and initiating appropriate actions with the help of the tele NICU nursing team in collaboration with the bedside team
- Documenting patient-level data and communication in our smartICU platform, RADAR keeping records of their health in NICU, diagnoses and documenting patients' symptoms and medical history.
- Identifying changes in the infant's symptoms and intervening in emergencies.
- Following appropriate guidelines and schedules.
- Keeping and tracking records for vital signs like temperature, pulse, breathing, oxygenation and blood pressure and any signs of distress due to birth asphyxia and trauma, respiratory distress, apnea, aspiration, sepsis, shock etc., in critically ill infants.

## **PREFERRED QUALIFICATIONS**

- B.Sc Nursing/M.Sc Nursing
- Minimum 1 year of hands-on NICU experience in a well-reputed hospital
- NRP certification and BLS
