

### CLOUDPHYSICIAN

[Cloudphysician](#) aspires to be the global virtual hospital. We are reimagining the delivery of critical care through patient-centric solutions. We use our advanced technology, designed and developed in-house, to increase access to care, all across the globe. Cloudphysician has been radically transforming delivery of critical care by impacting thousands of patients across India and enabling them to receive high quality care irrespective of their location and is moving towards mainstreaming this model globally.

Our Care Center, based in Bangalore, is staffed 24/7 by a highly qualified and trained critical care team that includes super-specialist doctors, nurses, dieticians, and pharmacologists. The clinical team uses our proprietary platform, RADAR, to connect to hospital ICUs to oversee and manage the care of critically ill patients across multiple regions. RADAR, built by our team of technology experts, incorporates automation, computer vision, real-time video, and data analytics to help expert care providers connect to and provide care to patients.

As of May 2025, we have cared for over 1,50,000 plus intensive care patients across 23 states in India and saved numerous lives. Learn more at: [www.cloudphysician.net](http://www.cloudphysician.net).

### JOB DESCRIPTION

Cloudphysician is on a mission to revolutionize critical care with cloud-powered Smart-ICU solutions, making quality healthcare more accessible. Our technology is transforming hospitals across India, and we're looking for a Senior Product Designer to shape intuitive, impactful experiences for medical professionals and patients.

### KEY RESPONSIBILITIES

- Lead end-to-end design for key product features, ensuring alignment with user needs.
- Conduct user research and usability testing to drive informed design decisions.
- Collaborate with product managers, engineers, and clinical teams to refine product requirements.
- Contribute to and evolve our design system for consistency and scalability.
- Transform the entire product and new ones to world-standard UX quality with impeccable visuals.

### PREFERRED QUALIFICATIONS

- 3+ years of experience in product design - to be reflected in your portfolio (required).
- Proven ability to conduct independent user research and translate findings into actionable insights and UI/UX design.
- Hands-on experience with a design system.
- Proficiency in Figma, Photoshop, and Illustrator.

- Excellent communication, presentation, and problem-solving abilities.
- Bonus: Exposure to ReactJS to enhance collaboration with engineers.
