CLOUDPHYSICIAN

Cloudphysician aspires to be the global virtual hospital. We are reimagining the delivery of critical care through patient-centric solutions. We use our advanced technology, designed and developed in-house, to increase access to care, all across the globe. Cloudphysician has been radically transforming delivery of critical care by impacting thousands of patients across India and enabling them to receive high quality care irrespective of their location and is moving towards mainstreaming this model globally.

Our Care Center, based in Bangalore, is staffed 24/7 by a highly qualified and trained critical care team that includes super-specialist doctors, nurses, dieticians, and pharmacologists. The clinical team uses our proprietary platform, RADAR, to connect to hospital ICUs to oversee and manage the care of critically ill patients across multiple regions. RADAR, built by our team of technology experts, incorporates automation, computer vision, real-time video, and data analytics to help expert care providers connect to and provide care to patients.

We have cared for nearly 50,000 intensive care patients across 16 states in India and saved numerous lives.

JOB DESCRIPTION

As an Intensivist at Cloudphysician you will be responsible for patient care delivered remotely at our partner ICUs and at our on ground ICUs in Bengaluru. This is a unique opportunity to be a part of democratizing critical care in our country. You will actively deliver quality critical care remotely to ICUs across India where access to quality critical care is limited. Our intensivists examine critical care problems and solutions at a population level in addition to individual level care.

In addition to clinical care, you will have the opportunity to participate in cutting edge technological advancement in telemedicine, research, management and education based on your interests. Our clinical team works closely with our technology team for constant feedback loops and this interaction is unique in the healthcare space.

Candidates interested in training and research are strongly encouraged to apply.

KEY RESPONSIBILITIES

- Caring of patients at the remote ICUs from a centralized command center in Bengaluru
- Conducting tele rounds which involve patient review, daily rounds, review of labs and radiology, drug charts, compliance to protocols and family counselling
- Liasing with the bedside team actively and providing critical care expertise in real time to augment delivery of critical care to the ICUs
- Check-ins with regular intermittent tele rounds on sick patients and initiating appropriate actions with the help of the tele ICU nursing team in collaboration with the bedside team
- Actively participate in quality initiatives directed at the betterment of the remote ICUs in the Cloudphysician network and contribute to the team's effort
- Documenting patient level data and communication in our smartICU platform, RADAR

- Contributing and participating in inhouse academic activities
- At our on-ground hospitals in Bengaluru:
  - Acting as consultant intensivist with admission privileges while on a shift.
  - Responsible for clinical management, procedures, liasing with other consultants and patient and family counseling
  - Participating in any meetings, quality projects, academic activities while on shift as a representative of Cloudphysician

REQUIREMENTS

- Education Qualifications: IDCCM, IFCCM, FNB/DNB Critical Care, DM Critical Care OR any equivalent foreign degree
- Patient care experience in good quality critical care centers
- Effective communication skills
- Strong leadership with big picture thinking and vision.

COMPENSATION

This is a full time position with an expectation of at least 16 shifts per month, which includes:

- Day shifts as an ICU consultant and team leader onsite at our partner ICUs
- Day clinical shifts from the Cloudphysician Care Center
- Night clinical shifts from the Cloudphysician Care Center
  (Each care center shift is 12 hours, and bedside shift is 8 hours)

Compensation is calculated based on a per shift basis and there is an opportunity to cover more shifts beyond the minimum required.

HOW TO APPLY

If you are interested. Please send your resume to careers@cloudphysician.net along with two references.
